

The Treasure in the Cellar weaves history and human interest in a must-read-book

By Charles Kurtz

Milwaukee, WI

The Treasure in the Cellar is a fascinating book that explains why “finders keeper losers weepers” is not all true in the legal world. Leonard, through his detail and relentless research, tells how these two boys uncovered a large cache of coins in the middle of the great depression in Baltimore only to get involved in lengthy legal battles. A host of unique characters claiming ownership of the gold provides color and variety to this interesting story. How and why each individual laid claim to the treasure and how their claims were presented and eventually settled makes you want to keep reading until the end. Read the book and watch for the movie which, I’m sure will be forthcoming.
